IPV-01- Vaccine Trial at ICMR-NICED: Request for participation

ICMR-NICED, a premier research organisation, under the Dept. of Health Research, Ministry of Health and Family Welfare, Govt. of India, is going to initiate a CDSCO approved regulatory trial entitled “A Phase II/III, Multicenter, Double-Blind, Randomized, Active Controlled Study to evaluate Safety and Immunogenicity of SII Inactivated Salk Polio Vaccine (Adsorbed) in comparison with SII (Serum Institute of India) Licensed Inactivated Poliovirus Vaccine (IPV)”. The Phase-III component of the study will be conducted under supervision of Dr. Shanta Dutta (Director & Scientist –G, ICMR-NICED). Mass vaccination with oral poliovirus vaccine (OPV) led to a reduction in the number of Wild type polio but there is a risk of the emergence of circulating vaccine-derived polioviruses in the environment as OPV uses live poliovirus. Global Polio Eradication Initiative (GPEI) recommended to gradually phase out Oral Polio Vaccine (OPV) and replace it with IPV to eliminate the risk of vaccine-derived polioviruses. The primary objective of the proposed study is to evaluate the safety and immunogenicity of SII (Serum Institute of India) Inactivated Salk Polio Vaccine (Adsorbed). Three doses of either SII Inactivated Salk Polio Vaccine (Adsorbed) or SII licensed IPV will be administered at 4 weeks apart with the first administration given at 6-8 weeks of age. Parents of age eligible (6-8 weeks) potential participants of any gender residing in Kolkata (within 10 kms. of ICMR-NICED) are encouraged to participate with their child voluntarily in this trial. Willing parents are requested to contact Dr. Suman Kanungo in this number (**9903824322**) or email (IPV01niced@gmail.com) with their personal details (name, age, sex, address, contact number, email and DOB of the child) for further information. Limited number of participants will be enrolled in the study and they will be screened for eligibility criteria before enrolment in the study. The participant enrolment will continue till the target is achieved.

Study site: ICMR-National Institute of Cholera & Enteric Diseases, P-33, CIT, Road, Scheme-XM, Beliaghata, Kolkata – 700010

Kindly send your willingness to participate through e-mail in the following format:

Sl. No.	Name	Gender	Age	Address	Contact No	Email	DOB of the child
